

Environmental Policy

Purpose

Bozankaya Rail Systems Inc., together with all our employees, aims to lead the sector in line with sustainable development goals by meticulously fulfilling the principles and requirements of quality, environmental, and energy management systems. In this framework, we shape our activities by adopting the United Nations' Sustainable Development Goals and Circular Economy Principles.

Scope

This policy covers;;

- All Bozankaya production facilities,
- Auxiliary facilities and new investments,
- All Bozankaya employees,
- Bozankaya's stakeholders, including personnel involved in contracts with suppliers, contractors, subcontractors, and other organizations.

Our Commitments

- ✓ **Commitment to Quality and Environmental Compliance:** Beyond diligently complying with legal and standard requirements related to quality and the environment, fulfilling international compliance obligations completely to demonstrate exemplary environmental and quality management in our sector.
- ✓ **Customer Satisfaction:** Always prioritizing customer satisfaction, establishing long-term trust relationships with our customers, and ensuring continuous improvement to create added value.
- ✓ **Employee Development:** Prioritizing the professional and personal development of our employees in producing quality products, enhancing their competencies through continuous training programs, and thus strengthening our innovation capacity.
- ✓ **Operational Costs:** Optimizing our operational costs through strategic management, balancing economic and environmental sustainability, and thereby maintaining our competitive advantage.
- ✓ **Risk and Opportunity Analysis:** Systematically analyzing risks and opportunities in our processes to make strategic decisions that secure our company's future.
- ✓ **Environmental Policies:** Actively involving all our employees and business partners in the development and implementation of our environmental policies, integrating their views and suggestions into our decision-making processes.
- ✓ **Zero Waste and Recycling:** Adopting the zero-waste approach, effectively managing waste, ensuring the recovery and recycling of waste to contribute to the economy, and raising environmental awareness. Ensuring the safe use and management of chemicals in a manner that does not harm the environment and human health.
- ✓ **Energy and Resource Efficiency:** Embracing energy-efficient, environmentally friendly technologies, implementing renewable energy projects to reduce our carbon footprint, and proactively managing the potential impacts of climate change by minimizing greenhouse gas emissions.
- ✓ **Supply Chain Management:** Taking strategic measures to enhance resilience against climate change risks in our supply chain, continuously improving the awareness and commitment of our employees and all stakeholders on environmental issues.
- ✓ **Water Quality:** Embracing an environmentally conscious production approach, utilizing technologies that ensure the efficient use of water resources for their protection and sustainability.

With these commitments, we aim to continuously improve Bozankaya A.Ş.'s quality and environmental management philosophy and create value for all our stakeholders.
